CHURCHES OF ST PAUL

A DIRECTORY

ST. PAUL PUBLIC LIBRARY
The groundwork for this list of churches in the City of Saint Paul was built up from the classified CHURCHES sections of the St Paul City Directories from 1856 through 1976. Additional information came from the newspaper clipping files of the St Paul Public Library and from histories published by some of the individual churches. City atlases and plat-books were sometimes helpful in pinpointing such vague listings as "corner of 12th & Cedar". Dates preceded by "CD" refer to annual volumes of the City Directories; dates found in other sources are inclosed in parentheses.

The first section of this directory lists churches alphabetically by name. The second section is a listing by location, first by numbered streets, then alphabetically by named streets. A street name followed by an underlined street name in parentheses—e.g., "Maywood (Coleman)"—indicates a change in street name since the church was built, the former name being underlined. Street numbers in parentheses—e.g., "7th & (130)"—indicate the old street numbering system which was replaced by the present numbering system in the early 1880's. If a newer equivalent was found, both numbers are usually given.

If there seems to be an unusual number of double addresses and cross-references in the second section it is because churches have a tendency to be built on corner lots. In more leisurely days the address given was that of the main entrance to the church; nowadays it is more likely to be an address on the side street, the weekday entrance to the church offices or rectory or wherever the mail is to be delivered.
